For Light and Faith!

In honor and homage to Lady Berreth of the Temple Sirinth, who fell twelve summers past in the month of September fighting the dark forces of necromancy that had fallen upon the former Barony of Antruche, Baroness Kali has opened the door for the creation of a new Temple as a beacon of hope and Light for those taking comfort upon her lands. All those wishing to join the Berrethian Order shall report at once to the former Temple grounds of Ilvaresh, and take their oaths upon the coming moon.

Defense of the New Temple

Paying the rate and wage of one silver piece for each moon of service, the Berrethian Order has need for guards, servitors and healers of all kinds willing to ply their trade for the favor of one of the greatest healers our lands have yet known. A call goes out to all the good guilds of the land for services mundane and magnificent, to afford the Temple all that it may require to dispense its good will upon the lands. Additional fees may be levied at

the guilds' fair rates, for specialized tasks or service in battle.

Cure the Famine!

Any and all clerics and initiates capable of casting the plant growth spells, be made aware that the famine currently blighting our lands can be healed with the use of the various plant growth spells! As was tested and found true in Tarridear during the previous moon, you can have your crops by harvest moon. Trust in your abilities. Trust in yourselves. Go into your fields with your arsenal of spells, and heal your lands, and health will return to the land once more.

Ritual Warders

Any with knowledge into the secret rituals of the Light, particularly the powers of consecration to preserve the Light upon the soil, please make your presence known in Ilvaresh. You may be fairly rewarded for your services.
