

New Players: IG Bank Set-Up

Hello new player! Welcome to KANAR! This sheet is to show you how to go about opening your player bank as a new player. This process is relevant to any new players who started playing the game after January 1, 2019.

1. Got to Kanar.club and hover your mouse over the **'Events Tab'** but do not click
2. A drop down will appear, and from here you want to click on **'Item Creation Form'**

3. Fill out the Item Creation Form with your email, real first & last name, and character name

Item Creation / Tag Submission

This form is used in order to earn coin or make items between events. Each regular event has 4 crafting weeks following it, and there are 20 weeks available for crafting during the winter.

Please submit a different response for each different item (I.E. 1 for is fin for three lvl 1 potions, but I need 2 forms for one level three potion and one level one).

4. Skip down to **'What type of item is this?'** where you will select *'I'm not making a tag, I am a new player requesting their starting coin'* and hit next

What type of item tag is this? *

☐ I'm not making a tag, I'm using profession skills to make coin between events.

☒ I'm not making a tag, I am a new player requesting their starting coin.

5. Enter any questions you have for the economics staff.
The economics staff handles all in game coin and tags, we do not handle real world money or *'Federals'*. If you have a question about membership dues or event fees, feel free to contact the treasurer at treasurer@kanar.club.
6. **Hit Submit.** This will create your new player bank and deposit 5 gold, or 50 silver, into it

Have fun!
